VOLUME 1 NUMBER 101

Muscatine, Iowa, Friday, April 17, 1931

FIVE CENTS THE COPY

Methods Lax, Says 'U' Report

Norman Baker (HIMSELF)

VINTON SUBSCRIBERS — a Free Press subscriber living in Vinton sends me a marked copy of a paragraph in the Cedar Valley Times, stating the Vintonians should remember that their city paper covers the Court House and City Hall and NOT SUBSCRIBE FOR OUTSIDE PAPERS.

The same paper carries a seven column black typed headline on the first page reading "GOVERNOR MEETS CATTLE REBELS." I wonder how the Vinton farmers like that. It is just for such reasons that Vinton folks seek an outside paper—LOYALTY TO SUBSCRIBERS is one thing that all cannot boast of, and if Mr. Kruse will cater more to the Vinton people he will not have to come out and tell them about his paper COVERING THE COURT HOUSE.

FARMERS will never share in their own until they quit letting everyone become members of their farm organizations. ONLY FARMERS, real dirt and stock farmers should be members. No one joins an association except to USE THAT ASSOCIATION, and some besides farmers are certainly USING the farmers' groups to GOOD ADVANTAGE. Remember farmers—"RIP" went to sleep for 20 years. When the farmers do awaken, there certainly will be a scattering of the PROFESSIONAL MEMBERS AND DOCTORS WHO NOW BELONG, WHAT DO THEY BELONG FOR?

CRIME—we read much about WHAT THEY SAY THEY WILL DO, to stop it, but there will have to be more actual accomplishment instead of so much talk before it is corrected. The way to do it is to PUNISH THOSE WHO ARE GUILTY—you don't read of Canada having much CRIME trouble. Let's pattern from her. One trouble in America with her CRIME is that some of those who have to do with the stopping of it are CRIMINALS.

TRAVELERS, you can now travel by air across the United States in 28 hours—no overnight stops—route just opened and that shows PROGRESS—soon we can eat breakfast in Chicago, dinner in mid-ocean and supper in Paris with all Parisian thrills, and high life.

Prof. Henry Flury, says the "power trust" is also behind the attempt to close K-TNT. I know they would like to shut my mouth. Strongest of all behind the movement to close K-TNT and destroy Muscatine's important industry is Clyde Rabedaux and the Muscatine Journal, then come the Doctors—Haven't I got a nice BUNCH OF ENEMIES? No one can accuse me of picking weaklings—EXCEPT ONE.

SMART—He was born in a two-room cottage in a mining village in the forest covered hills 50 miles from the ancient capital of Prague in 1875—he is a Bohemian—father and grandfather were miners—had he stayed, he, too, might have been a miner—didn't like the work—he did work in Illinois mines, and was canned because he asked the boss FOR A RAISE—Few years later he thought that boss for kicking him out into a new world of endeavor and he landed in the Illinois—nature—now has a home in and one in Channel Lake with more luxuries than his near which was a miner—he is mayor of CHICAGO.

THE DAILY — smoked ty of Albania, and now he is, Austria, with throat sorely that King must not be busy one.

EXTRA LICENSE IS CONTINUED 3 MONTHS

Washington — (Special) — The license of radio station K-TNT, owned by Norman Baker of Muscatine, Iowa, was today renewed by the Federal Radio Commission until Aug. 1. The decision of the Federal Radio Commission follows nearly one year of efforts on the part of medical and hostile newspaper interests throughout the country to get the famous Baker station off the air. Thousands of letters have been pouring into the commission offices since the adverse report made by Examiner Yost plainly showing that the people in the broadcast area of Muscatine, Iowa, station.

Started Last Spring
Testimony at the hearing last October brought out the fact that efforts had been made as early as March 1930 to interest the commission in discontinuing the license of K-TNT. Dr. T. F. Beveridge, of Muscatine, testified that his medical organization had supplied the commission with transcripts of Baker's speeches. The Muscatine station has been operating under temporary permits since last summer, the last regular license having been granted May 1, 1930. The renewal of the license of K-TNT, is a distinct victory for the well-known Muscatine broadcaster.

CAR RECOVERED IN SIOUX CITY

Butler Auto Used By Bandit In Getaway Found Today

The Chevrolet sedan in which Mr. and Mrs. George F. Butler of West Liberty were forced to accompany to Council Bluffs Wednesday night one of the armed bandits who escaped during a gun fight with Muscatine officers near Wilton Wednesday afternoon, was found today in Sioux City.

The WEATHER man says

IOWA: Fair tonight, not quite so cool in central portion; Saturday fair with increasing cloudiness; warmer east and south portion.
ILLINOIS: Mostly fair Saturday; rising temperature in central and north portions.
WISCONSIN: Saturday fair, with some cloudiness, somewhat warmer in east portion.
MISSOURI: Generally fair tonight and Saturday; rising temperature Saturday and in vicinity of St. Joseph tonight.
GENERAL FORECAST: Fair weather will prevail in the north-central states tonight and Saturday, except that conditions may become unsettled in the extreme northern portion, with possibly showers in northern Minnesota and over western Lake Superior Saturday.

Riotous Crowds in Madrid Hail Abdication of King

The above photo shows a typical scene in a Madrid street as riotous crowds hailed the abdication of King Alfonso XIII, and the founding of a Spanish republic following the elections last Sunday. This picture was rushed from Madrid to London by special airplane, cabled to New York City over the Western Union wires, and transmitted to Chicago over the telephone.

WADE, FAMED JURIST, DIES

Funeral To Be Held at His Home in Iowa City

LOS ANGELES, Cal.—(INS)—Plans were being made here today to return the body of United States District Judge Martin J. Wade to Iowa City, Ia., for burial. He died here after an illness of six weeks. Judge Wade was born at Burlington, Vt., Oct. 20, 1861.

The death of Judge Martin J. Wade caused a vacancy on the federal bench because of the creation of two federal judgeships in southern Iowa by the last United States congress. Because of the ill health of Judge Wade, Judge Charles Dewey of Des Moines was appointed to the bench in January, 1928, and it was expected that upon the expiration of the life term of Judge Wade, Judge Dewey would remain as the only presiding jurist of this district.

In addition to his activity in the courtroom, Judge Wade is widely known as an author of legal books and articles, lecturer, teacher and sponsor of citizenship in the public schools.

Des Moines Citizen Files Suit Against Turner, Assembly

DES MOINES, Ia.—(INS)—Notice of suit for \$200,000 against Gov. Dan W. Turner, Lieut. Gov. Arch McFarlane, Francis Johnson, speaker of the house of representatives, and members of the 44th general assembly was read in the senate today.

City Council Is Imbued With An Idea of Economy

Ordinance Governing Printing Duties Is Passed

Economy, of a sort, imbued the city council at its session Thursday night. Attorney C. P. Hanley, representing the Free Press, briefly addressed the council relative to the publication of official proceedings. He called the attention of the councilmen to the fact that the city ordinance required publication in two daily newspapers in Muscatine and that the Free Press would like to have its share of the business.

The ordinance is an old one but still in full force and effect and requires the council, at its first meeting in March, to designate two daily newspapers in the city as official papers and directs the city recorder to supply such papers with a record of the proceedings within two days after any regular or special meeting.

No such proceedings have been published to date in the Free Press. Several local attorneys are questioning the legality of all council proceedings since the first March meeting because they have not been published as required by law.

Hearing on New Trial for Brothers Is Set for May 1

Fair Weather for Tonight, Saturday, Prediction Today

Fair tonight and not quite so cool as the weatherman's prediction for Muscatine and vicinity tonight. Saturday is expected to be fair with increasing temperatures following by warmer weather by the week-end.

TEMPERATURE here at 7 o'clock today was 52 degrees, a drop of six degrees in the mercury during the past twenty-four hours. Skies, which were cloudy Thursday had cleared today, with the wind in the north. The river stage was 3.4 feet, a drop of one inch since Thursday morning.

PEOPLE PLEDGE ALLEGIANCE TO NEW REPUBLIC

Spanish Leaders Con- fident; Alfonso In Paris

MADRID—A new agreement with the Vatican, preserving many of the rights and privileges enjoyed by the Roman Catholic church in Spain for centuries but permitting the existence of all other churches also will be sought shortly, provisional President Niceto Alcala Zamora revealed today.

Protection by the state, one of the most cherished possessions of the Catholic church under monarchical rule, would be continued in the new agreement, Zamora declared.

By THOMAS A. LOAYZA
MADRID—(INS)—Confident that the monarchy has vanished permanently, the Republican government assumed the task of keeping Spain united in the face of disruptive quakes, and today turned its back upon Alfonso XIII's claim that he remains king.

The announcement by the exiled monarch that he had not abdicated

Plan No Trial

MADRID—(INS)—Reports that the provisional republican government of Spain might place the deposed King Alfonso XIII on trial before a high tribunal were emphatically denied by foreign minister Miguel Maura today.

"We haven't thought of any such thing," Maura told International News Service. "We wouldn't waste the time attempting to try him. It would be like trying the moon."

and hoped to be back on the throne soon created little comment. A government statement disposed of the matter in the following summary:

"Mister Alfonso Bourbon's manifesto cannot be judged worthy of comment by the Republican cabinet. We prefer to let the country be the judge. We would be unfaithful to the monarchial reaction, because the people are supporting the Republic."

The wild rejoicing which lasted for two days on proclamation of a Republic has about dissipated itself, although it flared briefly again when Major Ramon Franco arrived here from exile in Paris. Greeted at the station by a great crowd, which remembered his spectacular attempt to start a revolution from the local airfield, he was carried in triumph to the streets. The government appointed him chief of the Republican air service.

PARIS GREETES ALFONSO

PARIS—(INS)—Paris, cradle of Republicanism and haven of fallen monarchs, today became the active center of Spanish monarchism as Alfonso XIII of Spain and his family were reunited here after a hasty flight from Madrid.

Banished from their ancestral home when the ancient monarchy became a Republic within the space of a few minutes, the royal couple and their children reached Paris by different routes after 48 hours of separation and established impromptu court at the Hotel Meurice.

The royal exiles may later proceed to London, but to all indications Alfonso, king of a mythical kingdom, intended to remain at this political vantage point to watch developments in Madrid with a shrewd eye. He already has served notice on the Republic of Spain that he left merely to avert a civil war there, and that he did not relinquish royal rights or abdicate his throne.

Dr. Jessup Exonerated of Charges

DES MOINES—(INS)—President Walter A. Jessup of Iowa university is completely exonerated of all charges made against him by the report of the minority members of the legislative committee which investigated the university affairs and the board of education.

"We find that none of the charges made against the president of the university have been sustained by the evidence," the minority report states.

Signed by Senators L. H. Doran of Boone and W. S. Baird of Council Bluffs, the short, concise minority report makes seven suggestions and recommendations.

Private Use of Funds Opposed
It is suggested that the policy of the board of education in entering upon a construction and building program with the superintendents of buildings and grounds or any other employees thereof in charge of construction and building should be discontinued.

"Purpose Is to Teach"
Purchasing power and facilities of the institutions should be used exclusively for the benefit of the institutions under the control of the board of education according to the report.

In the concluding paragraph of the minority report Senators Doran and Baird declare the primary objects of the institutions under the control of the board of education is "the teaching and instruction of students and not the construction of buildings or improvements."

RANSOM PLOT VICTIM FOUND

Wealthy Brewer Dis- covered in Small Village

STREATOR, Ill.—(INS)—Following a wild night during which Chicago detectives and state troopers were fired upon by two automobile loads of gangsters equipped with machine guns, Fred J. Blumer, Monroe, Wis., brewer of near beer, kidnapped and held for \$150,000 ransom eight days ago, was found today on the main street of Wenona, Ill., sixteen miles west of here.

The brewer, whose disappearance had started a frantic and widespread search, was found by his brother, Jacob, of Chicago, who early this morning received a telephone call at the Streator hotel where he was staying instructing him to be in Wenona at 9 a. m. there, in the town of a few hundred population, he found his brother sitting in an automobile.

Ransom Probably Paid
With the brewer in the car were Sheriff Myron West of Green county, Wisconsin, and Frank Lutsinger, president of the First National bank of Monroe.

PROBERS FIND NO BASIS FOR COURT ACTION

No Changes in Per- sonnel Believed Necessary

By CURTIS HAY, Jr.
DES MOINES, Ia.—(INS)—No findings of larceny or any basis for criminal prosecution is contained in the report submitted here today by the legislative committee which investigated the University of Iowa to the general assembly. Sharp criticism, however, of lax methods employed in the management and administration of affairs by the board of education and university officials is included in the report.

No New Personnel Advised
Substantiation only in part of charges which brought about the investigation is found in the ma-

Cost \$22,996

DES MOINES—(INS)—Total costs to the state of Iowa for the legislative investigation of the State University of Iowa and the state board of education amounted to \$22,996.01, according to a report filed at the senate desk today by probe committee.

The houses of the legislature have to vote on the amount before the claims can be allowed. Appropriation of the amount will have to be made the same as for any other state expenditure.

Majority report, signed by four members of the committee, Senator H. B. Carroll and Representatives Byron Allen, Frank Byers and George Miller.

Senators L. H. Doran and W. S. Baird who submitted the minority report found, according to their report filed this morning, even less to criticize as result of the probe.

No changes in the personnel of the university administration or the state board of education is suggested or recommended in either report. Senator Carroll, however, filed an agenda to the majority report in which he recommends the abolishment of the present board of education system, substituting a salaried board of three or five members who would devote their entire time to their duties on the board.

On recommendations that Attorney General John Fletcher be ordered to investigate further into the matter of \$28,000 interest waived on a balance of the Rockefeller foundation funds donated for construction of a university hospital, the majority report suggests that the findings of the committee be laid before the attorney general and if he decides that the First National bank of Iowa City owes the state the interest he should proceed to take action toward obtaining it.

Purchases of land at Iowa City on the expansion program are authorized.

Trying to Prevent Cobb Divorce Suit

SAN FRANCISCO—(INS)—While friends tried to effect a reconciliation between Ty Cobb and his wife, the former baseball star remained in hiding here today.

Cobb did not board a train for Los Angeles Thursday, it was reported but stayed here with George Putnam, executive of the San Francisco baseball club.

It was said by the latter's friends that Cobb would remain here in the hope that mutual friends may persuade Mrs. Cobb to drop her suit instituted at Augusta, Ga., several days ago.

When Cobb left Monterey Wednesday he had planned to return home immediately.

One Game Today
In Major Leagues

CINCINNATI—(INS)—The scheduled game between the St. Louis Cardinals and Cincinnati Reds was postponed today account of wet grounds.

The postponement of the Cardinals game left the Cubs and Pirates to play at Chicago the only major league contest to be played today.

PROBERS FIND NO BASIS FOR COURT ACTION

No Changes in Personnel Believed Necessary

(Continued From Page One)

fording "a very inadequate return upon the capital invested," and were "at least in excess of the powers conferred upon the finance committee," according to the majority report.

McChesney Purchase a Violation.
Tuition and fees from students should not be diverted to capital investment purposes without express legislative authority, the majority opinion states. The committee also recommends that the practice of taking notes for tuition from students be permanently discontinued.

Purchase of the home of W. J. McChesney, treasurer of the university, by the board of education, was in violation of a statute of the state in force at the time of the purchase, the committee finds. In addition to this, the committee states that it has found the title on the McChesney property is not clear and that steps should be taken immediately to perfect the title to this real estate.

Other abstracts of title to many of the properties purchased have not been filed with the auditor of state, who under the statute is the custodian, and although a diligent search was made at the business office of the university, complete abstracts have not been found, the report says.

Fisk Not Exonerated.
J. M. Fisk, superintendent of buildings and grounds at the state university, is neither entirely exonerated or found guilty by the report, of charges which were made against him. Recommendations regarding the department Fisk heads and its director are made in connection with some of the findings but not with all of them.

That Fisk built seven buildings at the university is true, according to the report. Whether he saved money on the construction work by doing it for the university could not be learned, the committee states, since the voucher system in the accounting departments of the school are not clear.

Specific mention is made of one instance when the university official completed a painting contract on a university building in contravention of the state law. Work done by Mr. Fisk on the new hospital in Iowa City and on other buildings was not in compliance with the requirements of the law, the committee finds.

Violated Law on Records.
Complete compliance was not made in any case by the officials, the majority report sets forth. In relation to construction of public improvements by the board of education, it is suggested in the report that contracts for building construction should be let to the lowest bidder with the right to reject all bids and readvertise, but without authority of the officials and employees of the board of education to engage in the name of the state in an ambitious building business.

Clauses in some building contracts requiring that the contractor buy some supplies "from the university" were improper and had the general effect of putting the university and its officials in the business of buying materials, the report says.

Iowa statutes regarding records to be kept at the university are violated by the university officials in the records kept of the Rockefeller fund according to the report.

Outside Work Insignificant.
One charge made during the investigation was that W. R. Boyd, chairman of the finance committee of the state board of education, violated the Iowa statute which specifies that "the members of the finance committee shall devote their entire time to the work of said institutions."

Several outside positions held by Boyd and his duties in connection with these positions are outlined in the report with the comment that "Boyd's time, given to work other than that of the institutions is a relatively small amount of time in proportion to that devoted to the work of the institutions."

After a detailed outline of the purchase of a sand company by the university which was leased and later sold the committee states that Fisk was the moving spirit in the venture and the fact that his superiors with whom he consulted did not veto his plans to acquire the property should be considered as it throws light upon Fisk's building construction program.

Sand Plant Sale Ill-Advised.
The price paid for the sand company and its equipment was grossly out of proportion to its actual value, the report states. The committee reports that the sand plant purchase was ill-advised and declares the name of the university should not have been entangled in "a commercial enterprise of this character."

"The want of business acumen displayed by Mr. Fisk in this transaction suggests grave doubt as to the wisdom of the action of officials in permitting him to exercise the wide discretion which he enjoyed in carrying on building operations and in the purchase of coal for the use of the university," the report adds.

Practices of administration of state property by university officials are termed as "improper" by the majority report. Regardless of the loss suffered by these practices, it is stated, the impropriety is apparent.

Hiring of Attorneys Scaled.
Purchase of all supplies should be on sealed bids, which would all be opened at a designated hour is recommended. Touching briefly on the purchasing department at the university the committee states that although the purchasing agent opened bids as soon as they came in he proceeded to let the bids to the lowest responsible bidder.

If any information pertaining to the investigation proposed in the

Blaze Begins in Grass, Feeds on Oil, Starts Forest Fires

A blaze which started in the grass and fed on oil started the forest fires throughout Wisconsin early this week. The above photo, taken in Wisconsin Rapids, Wis., shows an oil storage shed of the Standard Oil Company of Indiana burning. Blazing oil was carried by strong southeast winds, starting fires blocks away from the principal blaze.

Town house of Lieut. Gov. Arch McFarlane is to be secured from the university investigation it will not be from the report.

The committee acknowledges that testimony pertaining to the correction of the lieutenant governor with the sale of coal to Mr. McFarlane would be beyond the sphere and jurisdiction of the committee. It is suggested in the findings that members of the house of representatives examine the testimony in the transcript for information on this matter.

Belting Was "Goat"
It was impossible for the committee because of the shortness of time, it is set out, to make a complete investigation of wholesale resignations in the college of medicine at the university in 1927.

In the judgment of the committee, the medical college and the university hospital are both now under careful, competent and skilled management," the report states.

Dr. Paul E. Belting unjustly bore the burden of criticism in Iowa's difficulties with the western conference, the report states. President Jessup, who was charged at the beginning of the investigation with being responsible for Iowa's athletic troubles, is not mentioned specifically but the report sets forth that Dr. Belting "is but little, if any, more responsible than those with whom he was associated in the affairs of the university."

In the testimony of at least three witnesses the committee finds that Dr. Belting made a strenuous effort to correct evils at the university.

Disqualified Students Sacrificed.
The committee finds that the fourteen students and athletes at the University of Iowa who were disqualified from participation in intercollegiate athletics were "in a sense, sacrificed that the university might be reinstated on the schedules of other conference institutions."

Students who borrowed from the athletic fund and were later declared ineligible were not knowingly guilty of the infraction of conference rules governing amateur athletics, according to the majority findings.

It is the hope of this committee that the University of Iowa and the Western Intercollegiate Conference will see fit to clear the names of these boys from the public's belief and the inference that they were willingly the recipients of an illegitimate subsidy set up and administered by officials of the University of Iowa," the report states.

Eight additional findings and recommendations wind up the majority report.

Would Limit Building Debt.
It is recommended that the office of the university treasurer be combined with the business office and that the treasurer will not have any connection in an official way with any banking institutions.

That all sums received from tu-

Film Star Must Be Married Again

HOLLYWOOD, Cal., (INS).—Helen Twelvetrees, film actress, and Frank W. Woody, realty broker, will have to go through another marriage ceremony, it was indicated here today when it was said that the actress married Woody approximately ten days before her divorce became final from Clark Twelvetrees, her first husband. The actress and Woody were reported to have married at Reno several weeks ago. Close friends said they planned to marry again in California immediately.

tions will be used only for educational support is urged.

While the bookkeeping system of the university is properly adapted to a part of the administration, it is not adapted to other efficient recording of business details, connected with the commercial enterprise of the institution, the committee finds.

A change in the method used in employing architects for the board of education is suggested.

Limitation of the functions of the department of buildings and grounds is recommended. Large forces of employed maintained for new construction work should be eliminated according to the committee.

Lobbying Is Attacked.
Further expansion of the campus should be suspended and the building of additional structures should be limited to absolute necessity until the financial condition of the state of Iowa improves, the committee believes.

Lobbying by institutions or departments is attacked in another part of the brief recommendations. Legislative inquiry, the probe committee declares.

There is too much delegation of power and too many of the functions of the board performed by the finance committee it is set forth as the majority committee's belief.

A final suggestion of the majority group is made that the governor, the present board and retiring members give the matter of administration of educational institutions an extensive study.

MARSHALL SATISFIED.
DES MOINES—(INS).—Eighteen of the 21 paragraphs of charges filed by us against the university administration are substantiated by the majority report of the committee which investigated the University of Iowa," Verne Marshall, managing editor of the Cedar Rapids Gazette and Republican, said here today after an examination of the report.

In a brief statement issued here Mr. Marshall stated it is his belief that "if the new board of education avails itself of the valuable information and if the governor and the attorney general take needed action, the investigation will have been well worth while."

He points out that the recovery of interest due from the Rockefeller fund deposited with the First National Bank of Iowa City will pay the legitimate expenses of the inquiry.

COUNTY I. O. O. F. MEETING HELD

West Liberty to Bid For 1932 District Sessions

Thirty-seven members of the Odd Fellow lodge of Muscatine attended the meeting of the Muscatine county organization held Thursday evening at West Liberty, where a program of talks, readings and musical numbers was given.

Ernest Peters of Muscatine called the meeting to order and the program included a musical number by the School Sisters of West Liberty, reading by Miss Chamberlain of Muscatine, vocal numbers by West Liberty school students, under the direction of Miss Turner, musical instructor, accompanied by Mr. Ingram, pianist.

H. W. Millicek discussed the possibility of bringing the eastern district association meeting of Odd Fellows to West Liberty in 1932, and announced that the bid for the sessions would be made at the 1931 meeting to be held at Marion April 25. A playlet "Acid Test" by Mrs. McCull and Mrs. Johnson of West Liberty, and a reading, "Renting an Apartment," was given by Dorothy Granjean of West Liberty.

The Muscatine county meetings will continue through May and June, with the May session and the June meeting will be held in Muscatine. There were 185 in attendance at the meeting, including four Iowa City visitors, two each from Minneapolis and Des Moines and one from Lone Tree.

At the close of the meeting a luncheon was served by the Rebekah lodge of West Liberty, with coffee furnished through the courtesy of H. F. Larsen of Muscatine.

Mrs. Jessup Wins Golf Championship

PINEHURST, N. C.—(INS).—Mrs. Marian Jessup, Wilmington, Del., won the women's singles championship of the North and South Tennis tournament here today by defeating Mrs. John Van Ryn, Philadelphia, 7-5, 6-2.

YOUTH'S DEATH HELD ACCIDENT

Inquest in Demise of A. Nyenhuis Held In Riverside

That the death of Alfred Nyenhuis, who died early Thursday morning, was accidental, was the verdict returned by a Washington county coroner's jury which held an inquest in the Jones funeral home in Riverside Thursday afternoon. The inquest was conducted by Louis Jones, coroner, and the jurors were W. L. Graves, F. W. Bandy and Ralph W. Thompson.

The jury was brought to Muscatine Thursday afternoon and sworn in over the body. It then went to the scene of the accident, three miles northeast of Riverside and the inquest was conducted at 7:30 p. m.

The verdict returned by the jury is as follows: "Albert Nyenhuis came to his death at the University hospital in Iowa City, Ia., at 7:50 p. m. Wednesday, April 15 as the result of injuries received by being crushed between the cab and caterpillar tread of a power shovel used in road work on primary road No. 41, three miles northeast of Riverside while in the employ of H. A. Gettler, contractor, of Muscatine. The injuries were received between 2:45 p. m. and 3 p. m. on April 15. To the best of our knowledge and belief, from the testimony offered, the death was accidental."

Water and Electric Report Shows Costs

Expenses of both the city water works and electric plant exceeded receipts for the fiscal year ending March 31, 1931, according to annual reports filed with the city council Thursday night.

During the year the water works receipts were \$74,206.79 and expenditures were \$74,778.55. The \$40,164.04 balance existing at the end of the preceding fiscal year is thus reduced to \$35,611.28.

Receipts of the electric plant were \$306,236.15, while expenditures were \$349,651.56 for the year just ended. Figures for the preceding fiscal year, included with the report, show receipts of \$329,439.30 and expenditures of \$369,592.54. The balance of the electric plant is now about \$10,000.

Excess of expenditures over receipts of both plants is ascribed to purchase of new equipment, improvements, and extensions of services.

Half a million small fish can be carried at a time to stock lakes and streams of the United States in a new car that has been built for the Bureau of Fisheries.

Sunday School Lesson

(By the Rev. P. B. Fitzwater, D. D., Member of Faculty, Moody Bible Institute, Chicago.)

THE RICH MAN AND LAZARUS

Lesson Text—Luke 16:19-31. Golden Text—And yet I say unto you, That even Solomon in all his glory was not arrayed like one of these.

Primary Topic—Jesus Teaches Sharing. Junior Topic—Jesus Teaches Sharing. Intermediate and Senior Topic—The Curse of Selfishness. Young People and Adult Topic—Right and Wrong Uses of Wealth.

In this lesson we are afforded a look into two worlds where we see extremes of character and conditions. In this present world we see a rich man reveling in luxury and a poor man in sore affliction, begging at the rich man's gate. In the other world we see the same men with reversed positions—the erstwhile beggar enjoying the richest blessings of heaven while the former rich man suffers the torments of hell. These lives were intended to be representative. The rich man descends from the highest pinnacle of worldly enjoyment to the depths of endless misery. The poor beggar ascends from utter wretchedness and misery to the loftiest heights of blessing.

I. Contrasted Lives (vv. 19-31).

1. The rich man (v. 19). He lived in a mansion secluded from the common people. He was clothed in costly raiment. He fed upon the richest food that could be provided. It should be borne in mind that this man is not accused of having unlawfully gained his riches. His sin was selfishly to indulge his appetites without consideration of others.

2. The beggar (vv. 20, 21). He was laid at the rich man's gate in the hope of getting at least the crumbs from his table. No consideration was given him by the rich man, and even the dogs of the street were more kind to him. Lazarus means "God is a help," indicating that a godly life showed through his poverty.

II. Contrasted Deaths and Burials (v. 22).

1. The beggar. He was found dead and his body hurried off to a pauper's grave. No notice was taken of it by the world, but that he was no longer to be seen at the gate of the rich man.

2. The rich man. He also died. His gold could not bribe the messenger of death. Doubtless a costly funeral was held.

III. The Contrasted Destinies (vv. 22, 23).

1. The beggar. He was at once carried by the angels into Abraham's bosom. The souls of believers are especially cared for at the hour of death. They go immediately to be with the Lord. Destinies are determined in this life.

TRIO HURT IN RAIL ACCIDENT

A. Orris and Two Children Injured in Crash Near Olds, Ia.

WINFIELD, Ia., (Special).—Three persons are in the Henry county Memorial hospital suffering from serious injuries received when the automobile in which they were riding was struck by a passenger train near Olds. The injured are A. Orris and his two children. Mr. Orris is the most severely injured of the trio. It was at first believed his back was broken. Each of the children, a boy and a girl, incurred a fracture of the leg.

All occupants of the car were badly bruised and cut in the crash. The automobile was completely demolished.

On an errand of mercy to his brethren. He regarded the testimony of a spirit of more value than the Word of God. Many today are more willing to trust the rappings of a ghost than the sure Word of God. Abraham declared that God's Word is sufficient—that those who reject Moses and the prophets would not repent though visited by one who had risen from the dead. The greatest miracles will not affect the hearts of men who reject the Bible. Lost men will learn too late the value of the soul.

Isn't It True?

What one thing can do more harm to your city—depreciate your real estate holdings more—lower the population—KEEP INDUSTRIES OUT OF YOUR CITY—cause more TURMOIL—THAN:

A newspaper that carries headline streamers across its front page in a vain effort to destroy the industries you already have in your city—that tries to close up business places in your city that have proved to be the city's greatest asset—that publishes DELIBERATE LIES about your city's businesses and individuals—that FIGHTS AGAINST ITS OWN PEOPLE in the community in favor of public utilities and high rates?

The Midwest Free Press DOES NOT and HAS NOT DONE THOSE THINGS.

CITY COUNCIL IS IMBUE BY ECONOMY IDEA

Ordinance Governing Printing Duties Is Passed

(Continued From Page One)

Thompson sprang into the breach and wrote out an ordinance repealing the ordinance requiring such publication. This was passed on its first and second readings. Alderman Horst voting against it. He gave as his reason a desire to know whether such a repeal would be legal.

Asked for an opinion, City Attorney Fishburn said there was a "nice question" involved, as the repealing ordinance might be considered retroactive and asked for a few days to brief the subject before rendering the opinion desired. He was given until Monday night, when the council meets again.

Monthly Reports Made
Action on the civil service ordinances which Fishburn prepared some time ago was pushed further into the future at Thursday's meeting. Alderman Horst twice asked that it be read, but Alderman A. E. Othmer, who presided at the meeting after the mayor had excused himself, said the matter would come up Monday night.

Monthly reports of city officials were received, approved, and filed. An opinion by Fishburn on the subject of out-of-town merchants delivering goods to the doors of customers in Muscatine held there was no legal barrier to such procedure. Wants Pole Moved

On the motion of Horst the council voted to have the attorney confer with the Clinton, Davenport & Muscatine railway about the possibility of removing a trolley pole from in front of the Baptist church on Third and Chestnut streets.

Alderman Matthiessen asked that the city engineer mark the street line at Indiana and Wallace streets. He complained someone had extended his garden from his lot into the street and was plowing it up. The council voted, at Matthiessen's request, to have the engineer prepare estimates of the cost of permanent crossings for Earl avenue, Dewey avenue, and Demorest avenue.

A motion by Horst to have the street committee investigate the matter of paving between the street tracks on Mulberry avenue was passed by the board.

Business Institute To Close With Talk By Grist Tonight

The "City Four-Square" will be the subject of tonight's public address by J. W. Grist, Chicago business speaker, at the high school auditorium at 8 o'clock. Everyone is invited to attend.

This address will close the business and community building institute which began here Monday. Grist has been giving lectures three times daily during the institute.

In his public address at the high school auditorium on "Your Community," Tuesday night, Grist urged that all work together for the good of the city. Factionalism, he said, never helped a city, and mud slinging leaves dirty hands as well as splintering those at whom it is directed.

He told of cities that were standing still or even going backwards when community leaders got together and made them places of beauty. He urged merchants to look on their competitors as co-workers and join with them in working for the community's good.

Accident Victim Is Buried in Illinois

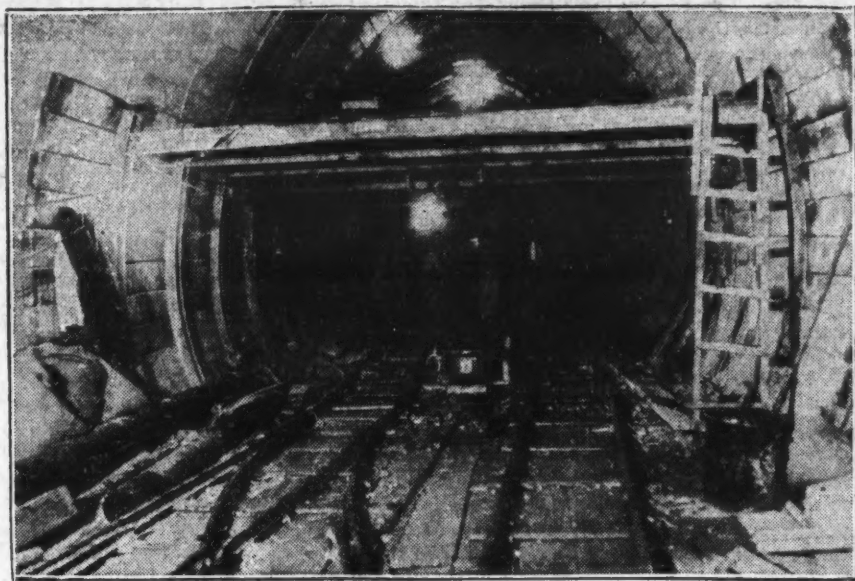

Funeral services for Alfred Nyenhuis, who was killed in a construction accident near Riverside Wednesday, were held at the Fairbanks home for funerals at 2:30 o'clock this afternoon. The Rev. Caleb Larson of the Methodist church, Illinois City, conducted the services. Burial was made in Illinois City.

Flower attendants were Mrs. Mary Rice, Mrs. Emeline Thiede, Mrs. Harriett Shields, and Mrs. A. B. Clapp. Pallbearers were Glenn Shields, Clifford Rice, Winfield Wells, Roy Krueger, William Vetter, and Ernest Dunker.

Sues to Obtain Medical Degree

MILWAUKEE, Wis. — (INS) — Charging he was arbitrarily expelled from the Marquette University school of medicine, Horace A. Frank of Wellsville, Wis., today had on file a suit to compel the university to grant him an M. D. The Rev. William M. McGee, president, and two other authorities of the school were made defendants. Frank alleged he was expelled without a hearing after completing the course and obtaining a certificate of one year's internship.

Where Fire Took Toll of Lives in Tunnel Disaster

The above photo shows the main tunnel of the sanitary district intercepting sewer in Chicago where men were working when blaze started. Many bodies were taken from this section. Eleven lives were lost in the disaster.

IOWA NINE TO MEET TONIGHT

Last Extemporaneous Meet of Season at High School

The final extemporaneous speaking contest of the season, which will close all forensic work at the high school for the year, will be held tonight at 8 o'clock in room A 25 at the high school when the Iowa Nine, which will be represented by only eight schools, Oskaloosa having dropped out this season, meets in the final contest.

Harold Lee will represent Muscatine on the program. Speakers from some of the other schools will be Henry Huelin, of Fairfield, Richard Pooley of Grinnell, Carl Stiefel of Burlington and Earl Henley of Davenport.

Late entries were Miss Nadine McKinley, representing Clinton, John Moon of Ottumwa, and Clinton Meyer, who will represent Iowa City.

Ottumwa, Iowa City and Clinton had not registered their representatives up till a late hour today. Oskaloosa dropped out of the nine early in the season. Whether this vacancy will be filled, probably with Washington, or not was to have been decided upon at a meeting held by the school heads at the Y. W. C. A. this afternoon.

On the other hand it was probable that the Iowa Nine would be dissolved into a Little Six extemporaneous speaking and debating contest.

Doris Kleindolph Seeks Divorce on Cruelty Complaint

Alleging her husband struck her repeatedly and made threats to kill, Mrs. Doris Kleindolph today filed suit in district court for a divorce from Charles Kleindolph, Jr. According to the petition filed by Attorneys Coster & Coster, the couple married Dec. 8, 1930, at Canton, Mo., and lived together until April 15, 1931.

Mrs. Kleindolph asks that she be awarded \$100 for attorneys' fees, \$25 for suit money, a temporary writ of injunction to restrain the defendant from molesting her and a writ of attachment in the sum of \$250. She also asks that she be permitted to resume her former name of Doris Maples.

Noted Aviator Is Given Prison Term For Bootlegging

DETROIT — (INS) — Russell A. Hosley, noted transport pilot who won recognition in two national air tours and in last year's all-American air derby, today was found guilty of airplane liquor smuggling by a federal court jury and immediately sentenced to serve two years in the Leavenworth federal penitentiary. The flyer was also fined \$2,500.

Concession Made To Rural People In 'Phone Dispute

ROCKWELL CITY, Ia. — (INS) — A concession has been made today by the Iowa continental phone company in the war that has been raging here for some weeks between the company and subscribers. The company has agreed to re-install free of charge, all telephones taken out during the dispute, according to an announcement by H. E. Nelson, manager of the company. The re-installation must be asked before May 15 if no charges are to be made, Nelson said.

Another change in the policy of the company is the lowering of the rates they had fixed. Instead of the \$18 annual fee payable in advance the organization has set \$15 yearly as the charge. The dispute started when the company boosted the annual charge from \$12 to \$18.

Monthly rates are to be \$1.50 if paid by the fifteenth day of the month and if not a discount of 25 cents will be added. The regular installation fee after May 15 is to be \$3.50, it was announced.

Venezuela's coal resources have been estimated at 5,000,000 metric tons, the fuel being mined at two places, while its potential water power has been estimated at 3,000,000 horsepower.

ASK PROPERTY BE PROTECTED

Hoover Criticized for 'Hands Off' Policy in Nicaragua

By WILLIAM K. HUTCHINSON
WASHINGTON — (INS) — The apparent reluctance of the Hoover administration to use marines in protecting American property in Nicaragua today drew a new demand for the withdrawal of all-American units from the Latin-American Republic.

The administration's critics declared the failure of the government to protect American interests in Nicaragua left no further excuse for the maintenance of marines in the country. This criticism came from the Capitol group, which has been fighting for two years to bring the marines home.

At the same time, Senator Swanson, ranking Democrat on the senate foreign relations committee, and Representative Fish (R) of New York, ranking majority member of the house foreign affairs committee, demanded that American property rights be protected in the Latin-American Republic. Swanson charged the Hoover administration would be derelict in its duty if it failed to use its armed forces to protect American citizens and property rights anywhere in the world.

REBELS TAKE TOWN

COLON — (INS) — Bandit insurgents under General Augustino Sandino today extended the scope of their activities toward Bluefields American naval base on the Nicaraguan east coast, according to word from Nicaraguan national guard headquarters at Bluefields. Messages reported the Sandinistas had captured the town of Rama, only 60 miles from Bluefields. United States marine planes were ordered to bomb the Rama sector, transferring their activities temporarily from Puerto Cabezas, former goal of the main body of rebel forces.

Finish Piers for Bridge Structure On Highway No. 76

Both piers and the abutments of the new steel bridge being erected on primary road No. 76, approximately one mile south of West Liberty, have been completed. Snyder and Johnson, Humboldt, are the contractors on the job. The bridge is being built to replace one destroyed by high water in June, 1930. Traffic around the new bridge has been diverted by means of a temporary bridge since the old structure was washed out.

Young Explorer

Hartley de Gerald, Chicago boy author and explorer, is ready for another adventure. On July 11 he will depart for the wastes near the mouth of the Mackenzie river in the Canadian northwest. A camera and a diary will be his equipment. Hartley is 13 years old and the son of John de Gerald, president of the Peoples National Bank and Trust company. A year ago Hartley made a trip alone to the West Indies and incorporated his impressions in a book.

KIDNAP FARMER AND GET \$1,160

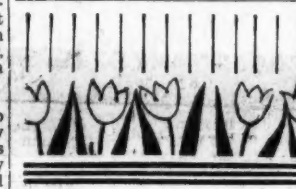

Bandits Drive Victim 120 Miles Before Releasing Him

CHICAGO — (INS) — With a letter as a clue, police today began a search for three kidnapers who drove Henry Brady, 64, a farmer, 120 miles from his home at Ramoth, Ill., to Chicago Thursday after robbing him of \$1,160.

Brady was tossed out of the bandits' car on the south side of the city, but he did not report the occurrence to Chicago police. He immediately boarded a train for his home to find the village excited over his disappearance and ready to form a posse in search of him.

The farmer was kidnapped Wednesday night on the road near Ramoth, which is 120 miles south of Chicago. Taken to his farmhouse, the bandits bound him and threatened him with their guns until he revealed the hiding place of his savings in his village residence.

Operated by wires from the pilot's seat, a searchlight that can be turned 30 degrees in all directions has been invented to assist aviators in landing airplanes at night.

MRS. TIMM DIES THURSDAY NIGHT

Mrs. Johanna Sophia Timm, 84, died at her home in Bloomington township Thursday evening after an illness of five years which followed a paralytic stroke.

She was born in Ribnitz, province of Mecklenburg, Germany, on February 8, 1847. In 1871 she married Henry Timm in Germany and in 1872 they came to the United States, settling in this part of the country. Mr. Timm died in 1924.

Mrs. Timm was a member of Zion Lutheran church. She is survived by six daughters, Mrs. Anna Belmas and Mrs. Mary Weiss of Bloomington township, Mrs. Emma Jone, of Muscatine, and Miss Elizabeth and Miss Clara.

Poster Lesson for Orono Women Given

Six women attended the poster making training school conducted by Miss Grayce Stevens, home demonstration agent for the Farm Bureau at the home of Mrs. Ross Jean in Orono township Thursday. The school today was held with Mrs. Carl Kuendel in Fulton township.

Fimm of Bloomington township; and four sons, C. M. Timm of Bloomington township, Walter and H. A. Timm of Muscatine, and Fowell Timm of Bloomington township; fourteen grandchildren; and seven great grandchildren.

The body was taken to the Willich funeral home pending funeral arrangements, which are incomplete. The family request that no flowers be sent.

Emmerson Shows Independence

Governor Emmerson of Illinois probably killed his political future when he vetoed the dry law repeal bill that had been passed by the legislature. Test votes have demonstrated that Illinois is a wet state. Governor Emmerson has been a consistent dry. Whether or not the report that pressure from Washington was brought to bear on him is true, he could hardly act otherwise if he followed his convictions.

It gives the democrats another opening into Illinois politics. If Governor Emmerson is a candidate to succeed himself in 1932 he is certain to be opposed by a wet and the democratic victory in Chicago could easily be emulated in the state election although the same issues will not be involved.

They Want To Forget

One would imagine that the boys who shot-down enemy planes in the war could not become lost, that one or another of their many acquaintances would know what had become of them, but the war department confesses that it cannot find any trace of 28 of these air fighters. One of them is credited with ten victories, three brought down eight enemy aircraft each, four had seven victories each to their credit and each of ten brought down at least one plane, according to the records. Others destroyed a number of enemy observation balloons.

The department believes many of the missing aviators are still engaged in aviation and adds:

"GLANDULAR TROUBLE"

(Continued)
Myxodema

This condition is caused as the result of disease and the function of the thyroid gland is lost.

Many times myxodema follows either the simple goiter or the exophthalmic type. The gland becomes hardened and wastes of atrophies. The loss of the function of this gland causes many changes in the body. In this condition it is hard to restore normal function again.

For best results a review of all natural methods should be taken and a selection should be made and carefully followed. From the view point of the new school of healing these diseases present no more trouble than other conditions.

We know that congestion is a basic cause of all physical ills. We know that when the body is cold the circulation is slowed down. Hot molasses will flow more freely than cold molasses will. Thick heavy blood will not flow as readily as clear normal blood will.

The body must not be chilled so that an immediate warm reaction cannot be secured. To long in bathing, cold showers for people with low vitality, wetting the feet, getting wet and chilled out in a storm, all of these exposures to a person of low vitality means trouble. Physical culture is all right but the exercises must be such that one is not exhausted; and in some cases warm water is better than cold water. Underlying the condition of low vitality is malnutrition and malassimilation. Improper food, poorly prepared, does not build up the body. In cases of goiter the upper spine should be carefully examined for tense musculature and adhesions which should be carefully manipulated and adjusted. Examine especially the sixth cervical vertebra. Particular attention should be given to the skin, kidneys, and colon. The skin excretes a vast amount of toxic material from the body in 24 hours, thus relieving the kidneys of a great deal of work. The colon must, above all things, be kept clean and active for it is here that quantities of poison can be produced and absorbed. This means a lot of extra work for the liver which acts as a detoxifier for the body; which in turn throws a lot of work upon the kidneys. The kidneys have to filter the poisons from the blood after they have been rendered more or less harmless by the liver.

The glands of the body constitute a wonderful chain of organs, the state of cleanliness and function of which means good or poor health. Especially should women understand a few simple principles which are involved in the vicious circle which is formed when one of these glands indicates that some systemic abnormality is and has been going on. We must not forget that

the body puts up a big fight before giving in and that by the time a symptom like goiter presents itself progress has been made to a marked degree in the wrong direction and that the goiter is simple a sign that the whole system is pretty well loaded with poison and foreign matter.

Give this a thought in passing. When a mother is nursing her baby menstruation usually ceases until the child is weaned. When menstruation is abnormally stopped where is this fluid going if it cannot get out through the natural channels. Obviously the glands are going to be filled to the breaking point and then often a tumor is formed which can in time change to a cancerous condition. When the glands and organs become filled up, and while they are changing into sacks of pus the excess will be thrown out of the body through a new opening such as an ulcer, or running sore of some kind. Exophthalmic goiter can be considered as a case of toxemia. We have a delicate organism to well tend with and great care must be exercised to conserve the patients energy as much as possible.

X-ray, surgery and suppressive treatment are dangerous, both locally and constitutionally.

Due to the nervous state of the individual mental rest must be secured as well as physical rest and conservation of vital forces.

We must secure the fullest cooperation from the patient in regard to getting plenty of rest and also in regard to eating the types of food which will dissolve and eliminate the toxins which create the basis of the trouble.

Foods such as grape fruit, lemons, oranges, tomatoes, various kinds of berries, these will act as solvents, dissolving and breaking down the thick waste material in the system and dissolving and breaking loose the sticky tenacious catarrhal mucus which will be found adhering to the mucous membranes lining the body.

Stone fruits such as peaches, plums, apricots, and leafy foods such as spinach, Swiss chard, mustard greens, beet tops and dandelions will act as eliminative foods; so will rhubarb, sauerkraut and cooked prunes. Also home made molasses candy.

Clean the colon thoroughly and have the patient rest as much as possible until quietness and relaxation have been secured. Rest periods may be used as often as possible.

When a person can be at home resting, it is a good plan to live on fruit for a week or so. Both fresh and dried fruits may be used. After a week or so follow this with a meal of a good sized raw salad and dry toast. Make the salad up of all kinds of raw vegetables and green leafy foods. After about two weeks or two eggs a week may be taken and on the remaining days, cheese and small amounts of very lean rare meat may be used.

ABE MARTIN

Mothers used 'it' up till their daughters got in, but now they have 'it' up till they start out. Stew Nugent, twenty-five, an ex-burglar, is visiting his mother and complains bitterly of younger blood monopolizing 'th' business.

"They brought glory to themselves as well as to the American air force by their deeds of valor and it is hoped this office will soon be able to establish contact with them." Modesty is a virtue but these men owe it to the nation that their records be complete. Their desire to forget all about the war should not be carried to such extremes. Uncle Sam is indebted to them as well as all others who went across and he wants to give them official recognition.

Y. M. C. A. Drive

Muscatine should give its whole-hearted support to the forthcoming Y. M. C. A. campaign. An active "Y" is a credit to any community. The good work accomplished cannot be measured in dollars and cents but finances are needed nevertheless to function properly.

As a developer of character, upright citizenship and clean minds and bodies, the Y. M. C. A. has done immeasurable good throughout the country. Any boy or young man who joins unreservedly into the activities of this organization is certain to reap great benefits which, if he does not realize it as a youth, will be demonstrated to him later when he begins to fight life's battles on his own account.

The campaign begins Monday. Do your share for the boys when the solicitor calls. There is no better investment.

New Auto Fatality Record

The automobile death toll throughout the country for January was 2,410, an increase of 30 per cent over January, 1930. It is a strong indictment of lack of caution when the official announcement asserts that 95 per cent of these accidents could have been avoided.

Dr. Paul Schroeder, Illinois criminologist, declares that an appreciation of the rights of others on the highways "appears to be a more important qualification of a driver than

Just Kiddies
By T. W. Burgess

THE SURPRISE OF TWO COUSINS

Peter Rabbit should have been back home in the dear old Briar Patch long ago. He knew that Mrs. Peter was worrying. She always worries when Peter oversteays. But Peter was not giving much thought to Mrs. Peter. In fact, I published it and I would be astounded, overcome with amusement. It is a bad state of affairs when a newspaper becomes as sceptic in its code of reasoning that it will not permit the right of an outsider's opinion to appear in print in its columns. You must think that he or she is a radical. You may print this letter if you see fit. I find the Press very interesting to read due to the fact that it is fair and unbiased. The letter is as follows: Although I do not advocate the violation of willful breaking of any law, even if I do not like it, some now I cannot help feeling a little sympathetic toward the grievance of the Cedar county farmers. I cannot make myself believe that they are hoodlums or habitual law breakers as some seem to brand them. Perhaps we have not been able to secure the truth regarding the real cause of the trouble. Maybe so far we have heard only one side of the situation through some prejudiced or biased newspapers. These farmers have not a medium like a newspaper to fight for their rights or tell the world of any unjust treatment which they have received. I know I would not appreciate the legalized trespassing of these state agents on my property. I hope this troublesome situation which is afflicting the farmers can be settled amicably. Calling out the militia would be foolish when there are other means which may be used which would accomplish the same purpose. By all means avoid bloodshed. It is unnecessary. As a rule farmers are as law abiding and peaceful as any other class of people.

W. E. Kee,
Cedar Rapids, Ia.

"I guess Bobby will sleep in peace now," thought Peter. "I can't think of anything more that possibly can happen to disturb him. Just treatment which they have received. I know I would not appreciate the legalized trespassing of these state agents on my property. I hope this troublesome situation which is afflicting the farmers can be settled amicably. Calling out the militia would be foolish when there are other means which may be used which would accomplish the same purpose. By all means avoid bloodshed. It is unnecessary. As a rule farmers are as law abiding and peaceful as any other class of people."

Still, Peter hung around. He didn't know just why, but he had a feeling that he might miss something if he left, and you know Peter never could forgive himself if he missed anything worth seeing. So he hung around for some time after Blacky and his friends had gone about their business. At last he had just about made up his mind that he had better be starting for home when he was startled by the snapping of a little twig. Peeping out from behind a big tree, Peter stared toward the place from which that sound had come. In a moment he saw a big black form.

"Buster Bear!" gasped Peter. "It's the first time I have seen him this spring. My, how thin he is!" Peter looked about to make sure that the way was clear for a hasty run if it should be necessary, and then held his breath as Buster drew near. Buster kept stopping to look and listen and sniff the air, and suddenly Peter understood. "He heard those noisy crows and he has come to see what it was all about," thought Peter, which was just exactly the case, as you and I know.

Buster knew that it was just about this place that Blacky and his friends had been making such a racket and he eyed the place searched everywhere for some sign of what had been going on. But there was nothing to be seen but a black feather at the foot of a tall old stump. By this Buster knew for sure that he had found the place where Blacky and his friends had been, but there was nothing to tell him why they had been there. Buster sat up and blinked thoughtfully. Then as he looked at the old stump his eyes brightened.

"I don't know what all that fuss was about," he muttered, "and I guess I never will know, but I'm glad I came just the same. That old stump looks to me to be rotten and hollow. I have found out nests in many an old stump like that, and beetles and grubs. I'll just see what that contains."

Buster walked over to the old stump, hooked his great claws into a crack, and pulled with all his might. Peter Rabbit, watching, held his breath with excitement. There was a sharp cracking sound, and then the whole side of that old stump gave way so suddenly that Buster Bear fell over backward. As he did so Bobby Coon rolled out, half awake and frightened almost out of his wits. It was hard to say which was the most surprised of these two cousins, Buster Bear or Bobby Coon.

(Copyright, 1931.)
Next story: Buster Bear's Short Temper.

About the hardest thing for a colored man to understand is a Negro-dialect story.

There may be a time for all things, but the wise man tackles only one thing at a time.

even normal intelligence." A study of 100 prisoners in Detroit who were convicted of manslaughter as a result of auto accidents showed only three had serious physical or mental defects, the others being normal persons who failed to use ordinary judgment in the operation of a car.

The courtesy we show in our personal contacts is forgotten as soon as we grasp an automobile steering wheel. We have a chip on our shoulders and take long chances in daring the other fellow to knock it off. It is a strange slant on psychology and seems to be possessed by all of us to a greater or less degree.

We Were a Little Too Hasty

Just after we finished praising King Alfonso of Spain for his decision to "hold the fort," his royal highness had a second thought and has arrived in France en route to London as this is written. Discretion seems to be the better part of valor in his case, particularly as he has ten million dollars worth of crown jewels with him.

He says he has not signed articles of abdication and that he expects to return and again rule over his people. Whether or not this proves true he doesn't have much cause to worry at present. In the meantime he is escaping a lot of trouble. Reports from Spain indicate the new government will have its hands full in maintaining stability. Dissatisfaction has already developed in several localities and it looks like the new republic will be lucky to escape a revolution.

A Regular Scrap

The life of a law enforcement officer is not always as easy as some folks would have us believe. This was demonstrated in the vicinity of Wilton Wednesday afternoon when several Muscatine city and county officers engaged in a running gun

battle with bandits. After reading the details of the affair it excels in action many of the wild west fiction stories.

The battle proves that Muscatine possesses public servants who are not afraid to risk their lives in doing their duty. That one or more were not killed or wounded considering the number of shots exchanged is fortunate. Here's hoping that the bandits will be caught with the aid of the many clues that were left along their trail.

Two Divorces

The Dempseys and the Cobbs seem to be at the parting of the ways.

That things have not been any too rosy for Jack and Estelle has been suspected by the Hollywood film colony for several months, but the dispersion in the Cobb household came as a surprise. The world was led to believe that the former baseball idol had a happy domestic life.

There does not seem to be much of the give-and-take spirit with temperamental people. Cobb's aggressiveness on the baseball field apparently has been carried into his home, according to advanced reports. A little more consideration, especially for one's immediate family, is not bad medicine for matrimonial maladies.

The new Sterling Memorial Library at Yale has a capacity of 4,000,000 books. That's quite enough to frighten any boy into choosing another college.

Our Platform for the People is:

1. Less taxation.
2. Fewer state commissions.
3. Universal school books.
4. Lower freight rates.
5. Return of river transportation.
6. A cleanup of some state institutions.
7. More efficiency in public offices.

AND NOW FOR THE BIG TEST

Just a line to announce that the Spring Test will appear in the next installment of "The Right Word." This is the last call. Sunday you will be looking for the errors. Full instructions will appear in connection with the publishing of the test.

Mrs. W. S. Blair of Dallas, Tex., writes as follows:

"I wish to discuss the following sentence found in your last test: 'I differ with you on this point.' Webster says: 'To express divergence of opinion, either differ from or with may be used. To express unlikeness, differ from alone is used.'"

"One could not properly correct this sentence without knowing the mind of the speaker."

"The fifth sentence, 'If I were you, I would not fall in the attempt,' might be 'should not' if the speaker means simply that we I in your place, I should not fall. However, if he is giving his friend advice with determination on his part, the 'would' should be used."

Answer: The rule is that one may differ with (or from) another in opinion, but that one object always differs from another. One object never differs with another. One should never under any condition say, "I would not fall in the attempt." "I would" always expresses determination, and it is illogical for one to be determined in the matter of falling.

And now for the big test! Is everybody ready?

Pointed Paragraphs

By James J. Montague

BANS ACROSS THE SEA

The fez, which once was but a whim—

The merest freak of fashion— Since it has been denied to him. Becomes the pasha's passion. It does not shade his russet brow, It lacks its esthetic merit, But it has been tabooed, and now He's simply mad to wear it.

And out court he'll gamely go— A doctored and chained defendant— And all because he wants to show That he is independent.

The fez the Turk, if left alone By meddling, meddling, meddling, Into the discard might have thrown And bought a new fedora.

But though the government prepare An iron bedroom for him, He still the style of hat will wear His father wore before him.

And, till the last resounding tramp Cells "taps" to all creation, He says he'll not be dressed by summary legislation.

And so while at the powers that be He launches forth a tirade, Insisting that he still is free Despite his ruler's trade.

Safe in the shelter of his home With curtains drawn he lingers, And wears a fez upon his dome And sends defiant fingers.

And though a law-defying crook Perhaps round the U. S. A. we look We find small grounds to blame him.

SOCIETY CHATTER, FEATURES and HELPFUL HINTS for the WOMEN

Auxiliary Host At Card Party Thursday Night

There were 100 participants at the card party given by the Auxiliary to the Spanish American War Veterans Association Thursday night at the Elks' home. Bridge and five hundred proved the pleasure of the guests.

Five hundred awards were given to Mrs. Carl Walters, Mrs. A. G. Gunnarson, Bert Hill and Milton Frank. Bridge scores were won by Mrs. Sheldon Schreurs, Mrs. Joe Jowal, D. L. Carl and M. O. Harris.

Mrs. Carl Tietko, Mrs. Art Chaudoin and Mrs. Emma Severs served refreshments at the conclusion of the games. The general committee in charge of the event included Mrs. Bertha Frack, Mrs. Bessie Kautz and Mrs. Della Lutz.

Women Entertain at Post-Nuptial Party

Mrs. Harry Severin and Mrs. William Russert of Clarence, Ia., entertained at the home of the former on Tuesday afternoon. The occasion was in honor of Mrs. Herman Schluter formerly Miss Mildred Long, of Tipton. Five hundred proved the pleasure of the guests and Mrs. Erma Stonerock and Mrs. Anny Spear won first and consolation prizes respectively. Refreshments were served at the conclusion of the game and those participating were: Mrs. Ellen and daughter Vera, Mrs. Jim Long and Barbara Long, of Tipton; Mrs. Raymond and daughter, Mrs. Sturges Spear, Mrs. Walter Spear and Carol Spear, Mrs. Fred Lukehear, Miss Ada Welty, Mrs. Charles Gayman, Mrs. Sadie Dwyer, Mrs. Laura Fell, West Branch; Mrs. Anny Spear, Mrs. Arnold Meyer, Mrs. William Fahlberg, Mrs. Howard McClellan, Mrs. Erma Stonerock, Mrs. Sadie Spear, Mrs. George Hegarty, Mrs. Erma Backman, Mrs. Clara Severin, Mrs. Clark Flansburg, Ella Backhus, Mrs. Louis Niles, Mrs. Von Roden, Mrs. Russert and Bessie Russert, Lowden and Mrs. Hilbert Long of Tipton.

Mrs. Leysen Is Group Hostess

Members of the Industrial society of the Women's Relief corps were entertained at the home of Mrs. Emma Leysen, 412 West Eighth street, Thursday afternoon. About 26 participants spent the time sewing buttons and later in the afternoon refreshments were served by the hostess and assisting hostesses, Mesdames Florence Warman, Mary Wollett, Patience Sharkey, Hester Clark and Minnie Walters.

The society will meet again the third Thursday in May. The place will be announced later.

Bunco Party Held at Ogilvie Home

Mr. and Mrs. Harold Ogilvie, 606 East Eleventh street, were hosts to choir members of the First Presbyterian church Thursday night. The 20 participants spent the evening playing bunco and a supper was served later. Prizes were awarded to Miss Constance Brown and Herbert Leu.

College for Women Marks Steady Growth

NEW LONDON, Conn.—(INS)—In a scant twenty years, Connecticut College for Women here has grown from a group of 123 girls who started their work in April, 1911, to four classes totaling 559 students assembled from nearly every state.

The city of New London gave the site and \$50,000 when trustees voted to put their college here. Later the city furnished \$100,000 for endowment purposes.

Morton P. Plant, traction magnate, gave \$25,000 when the college was proposed and when he saw it actually in being he handed over a fund of \$1,000,000, and later still built two large dormitories.

David H. Fanning, of Worcester, Mass., also built a dormitory for the college and four Connecticut families also provided buildings.

Mission Circle Enjoys Varied Program

The Women's Mission circle of the Congregational church observed their annual spring thank offering service Thursday evening at the church. The 60 members in attendance enjoyed the showing of a picture "Touring the Southwest." The Rev. E. W. Merrifield, pastor, lectured as the picture was shown.

Mrs. Ralph Willis sang, accompanied by W. J. Burnett. Dorothy Ziegler and Harold Blean played a violin duet.

The following committee served refreshments later in the evening: Mesdames Fred Ziegler, chairman, W. J. Burnett, R. S. Willis, H. J. Hartman, W. Stine, Clara Knight and Lola Nicklas.

Mrs. A. R. Schreurs, 1618 Mulberry, will be hostess to the circle at their regular meeting May 8.

St. Mary's Aid Gives Affair

Mrs. Clara Tobias won high score award in the five hundred game at the party given by St. Mary's Ladies Aid Thursday afternoon in the school hall. Second prize was won by Mrs. F. Eichelberger.

Sewing and quilting occupied guests not playing cards and tea was served later in the afternoon.

On Tuesday evening the aid will sponsor another card party.

Mrs. Rumsey to Entertain

Mrs. Augusta B. Rumsey, 804 East Ninth street, will be hostess to members of the T. B. C. club at her home Saturday afternoon at 2:00 o'clock.

Miss Marie Michel Weds R. Cambridge

SOLOMON, Ia.—(Special)—Announcement has been made of the marriage of Miss Marie Michel and Ray Cambridge solemnized Tuesday afternoon at 2:30 o'clock at the Little Brown church at Nashua, Ia.

Attendants at the ceremony were Miss Mabel Michel, sister of the bride and Perle Cambridge, cousin of the bridegroom.

Mrs. and Mrs. Fred Michel, parents of the bride entertained at a reception following the ceremony. The bridegroom is the son of Edward Cambridge.

Mr. and Mrs. Cambridge will reside in Iowa City.

Legion Women Hold Business Meet Thursday

Mrs. Ruth Dye and Mrs. Muriel Cornthwaite were elected Post and to the second district convention of the American Legion Auxiliary to be held in Clinton, Ia., May 13, when the local auxiliary met Thursday evening in the American Legion club room. The alternates will be Mrs. J. W. Hill and Mrs. Isabel McBride. Mrs. Odette Gorman second district committee woman will preside at the convention.

The Muscatine auxiliary will convene again Thursday evening, May 7.

Rainbow Girls to Have Supper

Mrs. Laura Ward, mother advisor for the Rainbow girls announces that officer practice will be conducted at 2:30 o'clock Saturday afternoon. At 5:45 o'clock a pot luck supper will be served at the temple with Marie Bomke, Helen Schroeder, Lorraine Ward, Bernice Eversmeyer, Alice Davidson and Jeanette Douglas in charge.

The board meeting of the group will be held at 7 o'clock followed by a business meeting at 7:30 o'clock.

N. O. Club Is Entertained

Mrs. Attie Rosenfield, 1478 Washington street, entertained 30 members of the N. O. club at a card party Thursday evening. Five hundred formed the diversion and first prize was awarded to Mrs. Hannah Ray. Mrs. Mabel Link received consolation award. At the conclusion of the pastime a supper was enjoyed.

Mrs. Hannah Ray will be hostess to the group Thursday, April 23, at her home, 122 West Second street.

Mrs. W. F. Tobias Is Hostess Thursday

Mrs. W. F. Tobias served as hostess at the party given by the Ladies' Auxiliary, No. 815, P. O. E. Bunco was the pastime of the 20 guests and Mrs. Marie Armstrong and W. F. Tobias won high score awards. Second prizes were given to Mrs. Garnetta Armstrong and Emmett Lee.

April 30 is the date set for a similar affair.

Aid Society Cards Buttons Thursday

Mrs. Henry Boldt and Mrs. W. A. Frack were hostesses to members of the Zion Lutheran Ladies' Aid society Thursday afternoon in the church parlors. Thirty-six members were present and spent the time carding 200 gross buttons. Refreshments were served.

Mrs. Anna Brunow and Mrs. Marie Seltzer will be aid hostesses April 23.

Cedar Street Aid Has Meeting

Cedar Street Methodist Ladies' Aid society met Thursday afternoon at the church for a work meeting. Mrs. Lena Dieck and Mrs. Mary Helen Dieck were hostesses. The group will convene again next Thursday.

Eastern Star Order Party Postponed

The bridge party planned by Electa chapter order of the Eastern Star for Tuesday night, April 21, has been postponed indefinitely according to Mrs. Alice Wilford, chairman of the social committee.

Mrs. Liebke Visits In Illinois

Mrs. C. H. Liebke, 919 West Third street, left this morning for Maywood, Ill., where she will visit her sister, Mrs. Henry Schaefer. Mrs. Liebke expects to return in two weeks.

Sewing Circle Is Entertained

The sewing circle of the Protestant Evangelical church met this afternoon in the church parlors with Mrs. Elizabeth Neipert and Mrs. Bessie Guenther as hostesses.

Killifer Resigns As Mission Prexy

SAN FRANCISCO—(INS)—Because of ill health, Wade "Red" Killifer today had resigned as president and director with the Mission Baseball club.

Killifer joined the Reds as manager in 1928 and was made president a year later.

Urges Bolt

(Above Photo) Mrs. Leslie Wheeler of Chicago is responsible for a resolution, regarded as the most significant of the entire convention, by which the Woman's Organization for National Prohibition Reform urged its 300,000 members to forget party regularity and support only those candidates for public office who have "openly declared themselves in favor of the repeal of the eighteenth amendment."

The past hat matching dress or blouse but worn with a dark coat is a leading fashion this spring. White hats which were a big item last summer are beginning to appear in quantity again, but still newer is the hat of pale blue, light green or pink.

Stiff hats cover a multitude of soft brains.

We Women

Widow Should Take New Offer of Happiness regardless of Public Opinion—Care for Unpunctuality

Dear Virginia Vane: I am one of the women who found marriage the happiest experience in the world and when my husband died four years ago I did not believe I would be able to survive the shock of his death. For years the world was blank and empty. Now I am lonely and a very kind, congenial old friend has asked me to marry him. We could be happy in a peaceful way although I could never again experience the happiness I knew with my first husband. What troubles me is public opinion. At the time of my husband's death I swore I could never marry again, and now it seems treason to go back on that vow. It looks as if I had never really loved him; and as if my grief had only been pretended. I would rather show respect for his memory than take this offer of marriage and get some little happiness. But I do not know what to do. My first husband's family would be shocked if I married again, and they give you a hard time about it. Please answer me through your column CON- STANT READER.

If you're going to let public opinion rule your life, you'll have a hard time deciding what to do. For every five people who will tell you that you're doing exactly right, there are always five more to prove to you that you're absolutely wrong.

You can't please everybody and in a question of deciding what will make you happy, you must be the best judge. Let the world say what it wants to. It will soon grow tired of discussing your problem, anyway.

You are showing no lack of respect to your husband's memory. In finding a pleasant agreeable companion for the rest of your lifetime. Any human being who loved you and wished you well would advise you to take what chance of happiness is offered you.

You are old enough to know whether you would be congenial to your new husband. You have found marriage a happy experience and you may do so again, although this new matrimonial venture will be on a different basis.

Of course, it's possible that your first family-in-law will be hurt. Very often they are, in cases such as this. But you can't allow them to influence your life, utterly. They have no reason to resent your taking this action. And if they truly love you, they will be glad that you found this new life, anything but bitter-sweet memories, and the knowledge of what you've lost. You must go on living, and you're intended to live as normal and happy a life as possible. That's what everyone of us is put into the world for. And there's no rhyme or reason in attempting to defeat the main purpose of existence, purely for the sake of public opinion.

LILY: Why don't you work a little cure on the tardy friend by being as unpunctual as they are? Next time you have a date with him, allow for his customary half hour and then give yourself another mood half hour in which to arrive at the appointed place. This should give him the opportunity to cool his heels for a period of at least twenty minutes, and in that allotted space of time, he may do some serious thinking.

The unpunctual young male is usually very punctured indeed about being met when, where and how he arranges. He may, himself, bring a man of affairs and very busy, arrive just a tiny bit late—say thirty minutes or so—but he expects to find his fair lady patiently parked in a corner somewhere waiting for him eagerly.

After the third or fourth time he fails to find his girl friend doing what is expected of her, it will dawn on him that a compromise must be effected. Either he must arrive when he says he will, or he must expect to be disappointed himself.

One or two little lessons of this sort have a startling good effect. Very often the offender doesn't realize what a nuisance it is to be kept waiting, because, being always late, he has never undergone the painful experience of waiting at all.

Try a little sauce for the gander and see whether it doesn't work.

Mrs. Vane will be glad to advise anyone on problems of love or marriage. If you desire a personal reply, enclose a 2 cent stamp. Just address your letter to Miss Vane in care of the Free Press.

Scoop Bonnets, Sailor Shapes, Set Paris Agog

By ALICE LANGELEIR

PARIS—Scoop bonnets and sailor shapes are setting Paris agog this spring and promise to be foremost bonnet fashions for summer.

Suzanne Talbot who often starts things around the capital, first made the scoop effect in white hemp straw with narrow white grosgrain band and two lacquered flowers in white and bright red. Cut out at the back like a veritable coal-scuttle, it extends to great width on the sides and the flowers are posed on the very front of the forehead.

Another lovely scoop bonnet comes in black crepe with pastel-pink net d'ange skin across the crown and at the back. It dips low on the sides.

The sailor with crown squared by a fold is a strong note in the Patou collection. One comes in a fancy blue and white heavy straw with buttoned oil-cloth band. In black milan with side drop there is fluted white tulle for trimming combined with the straw encircling the brim and forming the under-brim trimming. A navy-blue milan has trimming of fluted yellow organdy.

The pastel hat matching dress or blouse but worn with a dark coat is a leading fashion this spring. White hats which were a big item last summer are beginning to appear in quantity again, but still newer is the hat of pale blue, light green or pink.

Stiff hats cover a multitude of soft brains.

Bridge-Auction and Contract

By the Authority
MILTON C. WORK

CONTRACT BRIDGE

The above somewhat sensational hand was held in a Duplicate Contract game in Boston. There were varying results at the different tables and not all the bidding is a matter of record; but at the table that made the high score, it was as follows: South one Club, West one Spade, and North then had an ideal opportunity that seldom occurs—a chance to overbid in the adverse suit. He called two Spades, telling South that North either had no Spades or the Ace alone, and saw probability of a slam either in Clubs or in some other suit that North would announce later. East had a hopeless hand in spite of six Spades and passed, not hoping for any such good luck as South's being asleep at the switch and passing also.

South now showed the second suit of his semi-two-suit by bidding three Hearts; after which West did not feel safe in going further with such terrific strength declared against them. North then vaulted as high as seven Clubs and a glance at the hand will show that South made his contract with the greatest ease.

There never was a hand in which a player could read the make-up of his partner's holding with such accuracy North could after South's second bid. When South started with a bid of one Club, North (having King-Queen and a small Club) knew that South must have the Ace and four other Clubs (probably the Jack among the number) with the Ace of Spades, the King-Queen of Hearts, the King-Queen of Spades, or two Kings on the side. West's Spade bid made a high Spade holding improbable and seemingly marked South with the King-Queen of Hearts; and

South's heart response to North's two Spades cleared the matter up beyond peradventure and made North's grand slam bid in Clubs almost a cinch.

Help the other readers of the Midwest Free Press to cook. Send in the recipes you like best, sign your name, and address, they will be gladly published.

MENU FOR SATURDAY

BREAKFAST: Sliced Oranges, Farina with Cream, Creamed Fish on Toast, Doughnuts, Coffee.

LUNCHEON: Chicken and Green Pepper Hash, Currant Buns, Cup Custards, Fruit Cookies, Tea.

DINNER: Mulligatawny Soup, Baked Pork Spare Ribs, Sauteed Escalloped Potatoes, Beef Salad, French Dressing, Baked Indian Pudding, Whipped Cream, Coffee.

Doughnuts
One egg beaten with 1-2 cup sugar, 2 teaspoons melted fat, 1-2 teaspoon salt, a little nutmeg, 1 teaspoon vanilla, 2 teaspoons (level) baking powder sifted with 2 cups flour, and add alternately with 1-2 cup sweet milk to stiff mixture. Make the dough barely stiff enough to handle by adding as little flour as possible in addition to the 2 cups. Take a small amount on a floured board, roll to 1-3 inch in thickness, cut out and fry one of the centers in fat which just commences to smoke. Turn the doughnuts out once in frying and drain on brown paper.

Baked Indian Pudding
Put 3 cups skinned milk and 1 cup hot water on to boil. Add when boiling 7 tablespoons yellow corn meal wet in a little cold skinned milk, and stir till thick. Let it cool and add 2-3 of a cup of molasses, 1-2 teaspoon cinnamon and a little salt. Stir well, put on buttered pudding pan and set in oven. When hot, add 2 cups cold skinned milk. Do not stir. Bake 3 hours.

The Evening Story

MISS CINDERELLA
By Leah Friedman

Dresses! All morning long an endless procession of fashion's latest frocks had marched before him. Sapphire blue over silver, deep rose crepe with an astonishingly long hemline sweeping gracefully to a point on the rustle side, soft green taffeta that rested in satin. Princess lines, of course, and fit for an empress.

Women's wearing apparel! Visibly Don Burns dug his fork into the menu card as he waited for some one to take his order. If only he were in some other line of work; anything but that which he managed. Two-thirty in the afternoon and he was starved. Nice time to be going to lunch.

"I wish every woman in the world wore black. Nothing but black. If I had my way I'd dye all the dresses in the universe black," muttered Don Burns, resting his throbbing temples upon his hands for a minute.

"Have you ordered?" asked a voice soft as the murmur of the fountain in the center of the restaurant.

Don Burns jumped, then looked up into the most sympathetic eyes he had ever seen.

"Why, no, thank you," he stammered, taking the menu card slowly from the hand of the little waitress. "Er—what's good today?"

"The broiled lamb is delicious," she smiled. "Or the halibut steak."

"Hm. Lamb or halibut. Yes, that'll be fine," he beamed, noting the way her hair curled all around the frilled cap she wore.

"Which did you say?" There was—could there have been a sprig of a smile about her lips for an instant?

"I'll have the baked lake trout," he decided firmly. "And mashed potatoes and cucumber salad and coffee and apple pie."

Don Burns had suddenly acquired a lusty appetite.

"Now that girl," he mused, the moment she had tripped kitchenward, "that girl ought never to wear black. It makes her look too somber or maybe she's blue about something. Light shades, pastel colors for her. She'd be stunning."

South's heart response to North's two Spades cleared the matter up beyond peradventure and made North's grand slam bid in Clubs almost a cinch.

Complete Market Reports

WHEAT HOLDS STEADY, CORN AND OATS OFF

Trade Moderate With Reports Mostly Favorable

CHICAGO—(INS)—Wheat closed firmer today. Other grains were steady to easy. Final prices for wheat were 1/4c down to 1/4c higher, corn 3/4c off and oats unchanged to 1/4c lower. Rye was 1/4c up to 1/4c down.

Wheat advanced 1c in early trading with active buying on continued dry weather over the spring wheat area and firmness in Liverpool.

The weather forecast indicated possible showers for the northwest, but traders were not inclined to be bearish as they regarded the recent crop reports as too unfavorable to warrant any extensive selling.

Liverpool was 1/4c higher and Buenos Aires 1 1/2c higher, recovering from yesterday's decline. Winnipeg ruled 1/4c up at mid-session. Argentine shipments were liberal at 4,654,000 bushels. Export business was re-opened moderate overnight.

Corn was a shade firmer at the start in sympathy with wheat, but later receded with local selling.

Trade was moderate and easily influenced. Receipts were liberal and weather conditions generally favorable over the belt.

Oats and rye followed the leading cereal.

Estimated carlot receipts were: wheat 63, corn 153 and oats 25.

Hog Receipts

DES MOINES, Ia.—(INS)—(U. S. D. A.)—Combined hog receipts at 23 concentration yards and 7 packing plants located in interior Iowa and southern Minnesota for the 24-hour period ended at 10 a. m. were 31,100 compared with 30,000 a week ago.

Steady to 10c lower, mostly steady to weak; marketing moderately heavy; bulk of 170-220 lb. 70¢-75¢; several stations paying up to 75¢ for choice 180-200 lb. weights; 230-250 lb. averages largely 85¢-90¢; big weight buyers down to 65¢.

Quotations follow: Light lights good and choice 140-160, 85¢-90¢; light weights good and choice 140-160, 85¢-90¢; 200-220, 85¢-90¢; medium weights good and choice 200-220, 85¢-90¢; heavy weights good and choice 200-220, 85¢-90¢; 250-280, 85¢-90¢; 300-350, 85¢-90¢; pigs good 275-300, 85¢-90¢; 350-425, 85¢-90¢; 425-500, 85¢-90¢.

The above quotations are based on truck deliveries of such red deliveries as are given feed and water fills at destination. Weighing 100-120 lb. from point of destination and weighed without feed or water at point of delivery usually sell from 10 to 25c above prices quoted.

ROBOTS DIRECT LIGHT SYSTEM

Electric Power is Distributed in Kansas City

KANSAS CITY, Mo.—(INS)—An army of robots now controls the distribution of electric power over this city, and the power com-

pany has adopted the slogan of bakers: "Never touched by human hands." The electric power leaves the main plant over large cables that lead to the eleven substations in various parts of the town. There the power is whipped into the volume necessary for transmission over the many smaller lines which serve homes, stores, offices and factories. Enough electricity is handled by the substations to bring death to a whole army of men, but the steel fingers of the automatic switches move day and night, constantly alert to the ever-changing needs. Even a steel hand acts as taskmaster over its robot associates, making a daily record of the activities of each. Work was started on the automatic project in 1922 and with its completion it is believed to be the

first in any city in the United States, according to E. Bettis, vice president of the company. There are five direct current substations in the down-town district and six alternating current stations in the residential districts. In the D. C. stations, where the current demands are irregular, automatic machines regulate the flow to meet the demand. In the A. C. stations, which supply the homes, the mechanism is chiefly engaged in reducing the voltage for distribution. So sensitive are the automatic controls that ordinary breakdowns do not halt the work. A short circuit or a broken wire gives the signal for certain controls and the trouble is corrected automatically. Major breakdowns seldom cause a delay, for the robots change the switches and spare cables are put into use.

Girl to Attempt Atlantic Flight

GALT, Ont.—(INS)—Miss Edith McColl, Galt stenographer-aviatrix, will attempt an eastward trans-Atlantic flight this summer, it was announced today.

P. Broadbent, Toronto promoter, manager of the proposed flight, said that Miss McColl's route will be from Harbor Grace, Newfoundland, to Craydon Field, England.

DAVENPORT—E. H. Runburg, Davenport, has been elected president of the Scott County Bankers' association, it was revealed today. H. O. Brownlie, Long Grove, was made vice president; J. F. Putzier, Blue Grass, secretary, and Rudolph Schroeder, Buffalo, treasurer.

Leaves Big Estate To Build Home for Elderly Spinners

CHICAGO—(INS)—Plans for the construction of a home for spinners 60 or more years old were getting underway here today as a result of an out-of-court agreement on the \$3,000,000 will of Mrs. Suzanne King Bruwaert.

Relatives yesterday withdrew their objections to the disposition of the estate, and an order was issued upholding the will's validity. As a result, approximately \$2,500,000 will be spent on the construction and upkeep of the spinners' institution, which is to be located in or near Chicago.

It is unnecessary for a man to be a brilliant conversationalist in order to hold his own in soliloquy.

Chow Dog Attempts To Aid Mistresses

CHICAGO—(INS)—"Suey," a chow dog, was blinded in one eye by acid early today when he sought to protect his mistresses, the Misses Effie and Ida Helm, from the depredations of three armed bandits. The dog leaped and bit one of the thieves on the arm. Another of the bandits tore Suey away, choked him, and tossed a potion of acid into his eye.

POLICE KILL BANDIT BOWLING GREEN, O.—(INS)—Charles Saunders, 20, of St. Louis, Mo., suspected bank bandit, was shot and killed on a downtown street here today in a gun fight with police.

—By PGP MOMAND

"KEEPING UP WITH THE JONESES"

AFTER QUITE AN ARGUMENT AL PREVAILED UPON EDDIE BOWERS TO CONTINUE TRAINING FOR HIS ENGLISH CHANNEL SWIM. BUT EDDIE IS STILL A BIT SHAKY FROM HIS EXPERIENCE IN THE PARK LAST NIGHT.

WHAT YOU NEED, EDDIE, IS SOME RELAXATION. THAT EXPERIENCE IN THE PARK LAST NIGHT UPSET YOU! COME ON WITH ME AND SIT IN A FRIENDLY LITTLE GAME OVER AT JOE'S PLACE. YOU'VE GOT TO HAVE SOME PLEASURE WHILE TRAINING FOR THIS ENGLISH CHANNEL SWIM!

YES, AL, YOU AND EDDIE SURE HAD TOUGH LUCK, BUT DON'T WORRY, I'LL LEND YOU YOUR TAXI FARE HOME!

TOO BAD, AL—SUCH IS LIFE, OL' TOP!

YOU GUYS WAIT—MAYBE I CAN DIS UP SOME MORE COIN—

YEH, MR. LANG, I'LL NEED ANOTHER HUNDRED BUCKS! EDDIE'S TRAINING IS COSTING MORE THAN I THOUGHT—

"HIGH LIGHTS OF HISTORY"

Nathaniel Wyeth—5. Wyeth's Second Expedition, 1834

—By J. CARROLL MANSFIELD

DESERTED BY HIS FOLLOWERS, NATHANIEL WYETH REMAINED ALONE ON THE PACIFIC COAST, SPENDING THE WINTER IN OREGON EXPLORING THE COUNTRY ALONG THE BANKS OF THE WILLAMETTE RIVER. . . .

LATE IN FEBRUARY, 1833, WHILE THE WINTER SNOWS STILL LAY DEEP ON THE GROUND, HE STRUCK OUT FOR CIVILIZATION WITH ONLY TWO INDIANS FOR GUIDES AND COMPANIONS. BY GOOD FORTUNE HE REACHED ST. LOUIS SAFELY, TRULY A REMARKABLE FEAT. . . .

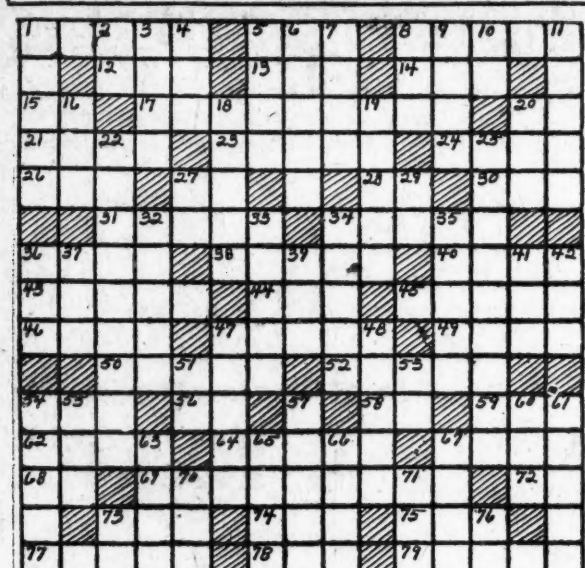

NOT DETERRED BY THE FAILURE OF HIS FIRST ATTEMPT, WYETH DOGGEDLY SET TO WORK TO RAISE AND EQUIP A SECOND EXPEDITION, BETTER ORGANIZED AND SUPPLIED. (Copyright, 1931, by J. Carroll Mansfield)

IN SEPTEMBER, 1834, WYETH RETURNED TO OREGON WITH 60 MEN AND CAMPED ON THE SPOT WHERE THE CITY OF PORTLAND NOW STANDS. HE FOUND THE REDSKINS SULLEN AND UNFRIENDLY. . . .

An Amazing Policy for 3¢ Per Week

Pays \$1000⁰⁰ For Death

Death is a dreadful thing to think of. We hope it does not come to you for many, many years. If it does, are you protected? With this policy you have unusual protection for a trifling sum. It pays your heirs \$1,000 in case of death—it increases automatically to \$1,500. Protects you in case of practically every kind of accident except aviation or racing. We believe it is the greatest value ever offered for this combination price—½ cent per day.

Pays \$1000⁰⁰ For Eyes

You may be wrecked in your auto—your eyes put out. Then what would you do? \$1,000 would come in handy wouldn't it? That's what this policy pays for the loss of both eyes. You cannot afford to take the chance of going through life unprotected. 3¢ a week pays for it.

Pays \$1000⁰⁰ For Hands

Supposed your auto crashed into another and both your hands were injured so that amputation was necessary. What would you do without your hands? You could not earn money as easily could you? This policy pays you \$1,000 for the loss of your hands. It's worth ½ cent a day, isn't it?

Pays \$1000⁰⁰ For Feet

What about your feet? Under a train they may be cut off—a wreck may easily require amputation. In a burning building, on the street, in your home an accident may happen that causes the loss of both your feet. If it does, this policy pays you \$1,000. Think of it—3¢ per week.

Pays \$1000⁰⁰ Hand and Foot

Think of how unfortunate you would be, the great handicap you would have if you lost through accident one of your hands and one foot. What would you do to support your family or yourself? Your earning ability would be lessened. This policy pays you \$1,000 for such an accident. Biggest ½ cent a day you ever spent for protection.

Pays \$1000⁰⁰ Hand and Eye

Wouldn't it be terrible to go through life with only one hand and one eye? Many suffer that. It cuts your earning capacity down to one half or more. It happens to you while insured with this policy, you receive \$1,000. All for the small sum of ½ cent per day.

Pays \$1000⁰⁰ Foot and Eye

If you ever have an accident and you lose one foot and one eye and it happens when you do not have protection, you will forever remember reading this advertisement that offers you \$1,000 protection for the loss of one foot and one eye. 3¢ a week is a small amount for such a large payment.

To All Loyal Citizens:

All of you have had the opportunity during the past few days to see for yourselves how some newspapers garble and paint the TRUTH—we refer to the farmers' affairs at Tipton, Iowa. Every attempt was made by newspapers in the state of Iowa to belittle the occurrences. The FREE PRESS told the truth and pleaded for the farmers. That is our policy always. Nearly 1,100 persons own the stock in this paper—it is not printed or owned by four or five men whose desire is to strangle the public. You need this paper—it is fearless, courageous, truthful and newsy. You get it for only 15 cents weekly by carrier, or \$4 yearly by mail. Will you help the People publish a People's paper? Subscribe today—THANK YOU.
